

## Emergency Kit

### ISO 9650-1 SOLAS B Life Raft (£1603.20)

Life raft, a last resort survival kit to be only used if the boat is not safe stay on. Cases include fire and sinking.

### Grab Bag (£30)

A Bag to take with you on the life raft. Includes things like passport, some spare cash, EPIRB, GPS, Flares, Lights etc.

### EPIRB (£510)

Emergency Position Indicating Radio beacon. A device to alert search and rescue for emergencies at sea. Sends a 48-hour continuous signal. One for grab bag and one for boat.

## Emergency Kit

### Orange Smoking Floating Flare (£29.95)

Floating Flare to keep in Grab bag for the life raft, so you can be found by search and rescue vessels. Daytime use only.

### Strobe Flashing Light (£15)

A strobe light to keep in Grab bag for the life raft. So, you can be easily seen in the dark by search and rescue vessel.

### Handheld GPS (£134.40)

Handheld GPS. Provides your position for search and rescue vessels and useful for navigation. One needed for Grab Bag and one for boat use.

## Emergency Kit

### Breakable Light Sticks (£24.80)

Light sticks for Grab bag and to provide a luminous source for 12 hours without any electronics.

## Safety Kit

### Life Jacket (£114)

A life jacket with 150N of Buoyancy and crotch straps. Useful while rowing normally and needed for emergencies.

### Life Jacket Re-Arming Kit (£21.60)

A rearming kit to replace the gas canister inside the life jacket if it runs out

## Safety Kit

### 3 Hook Safety Harness (£91.60)

A crucial piece of kit to keep you alive by being clipped to the boat in the event of capsizes.

### Waterproof Survival Suit (£234)

A survival suit to keep you warm and prevent hyperthermia. Useful for winter training in UK and need for emergencies in the Atlantic Ocean.

### Flare Pack (£372.32)

A large flare pack, mixture of red and green flares for signalling towards vessels if radio communications are not effective.

## **Safety Kit**

### **Daylight Signalling Mirror (£11.40)**

Used for signalling aircraft and ships during the day as part of the emergency SOLAS life raft kit.

### **Safety Markings (£54)**

Safety markings to be put inside both cabins and on the outside the shell. These are to label the port and starboard side if boat capsizes.

### **SOLAS Reflective Tape (£54)**

Improves visibility at sea, especially at night for both normal rowing and emergencies.

## Safety Kit

### Blunt Deck Knife (£84)

A knife for cutting rope. It is blunt ended for safety purposes such as poking holes in things.

### Handheld VHF Radio (£243.60)

Handheld VHF useful for communicating without having to go inside the cabin if you need to contact a vessel immediately or shore-based station.

### PLB (£324)

A Personal Locator Beacon. A small device that is always on person for vessels and aircraft to find you in emergencies.

## Essential Kit

15 L Water Container (£24)

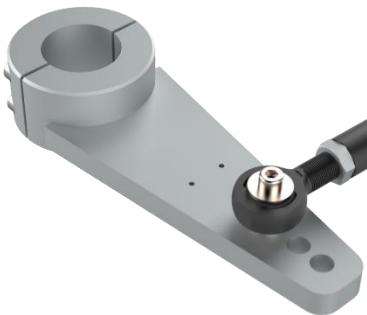

One container for emergency if water makers breakdown. Also, have one always filled with water for drinking and eating.

Spare Rudder (£1440)

A spare rudder in case the main breaks. Required for steering and for staying on course with the autohelm.

Spare Tiller Arm (£384)

Acts as lever to turn the rudder. A spare one in case the main one breaks.

## Essential Kit

### Pair of Oars (£960)

Oars needed to power the boat. One spare set needed and one set must be new.

### Oar Retainer Lines (£16.80)

Retaining lines so that oars are attached to the boat and do not get lost in rough seas.

### Handheld Compass (£84)

Handheld compass. Useful for keeping along a bearing. Handy for checking if you are on a collision course without vessels and other hazards.

## Essential Kit

**JetBoil Cooker x2 (£372)**

A cooker crucial for heating water to cook food.

**Jet Boil Fuel (£16.80)**

Enough fuel for a solo crossing (450g).

### Waterproof and wind

**Resistant Matches (£13.20)**

Waterproof and wind resistance army matches to light jet boil.

## Essential Kit

### Buckets x3 (£50.40)

3 Buckets. One for washing in, one for general toilet use, one spare. All must have lanyards through them, so attached to boat.

### Stirrup Pump (£36)

To pump water out from any locker in the boat.

### Para-anchor (£1128.00)

Highly useful for slowing you down when you are being blown in the wrong direction and minimises progress loss.

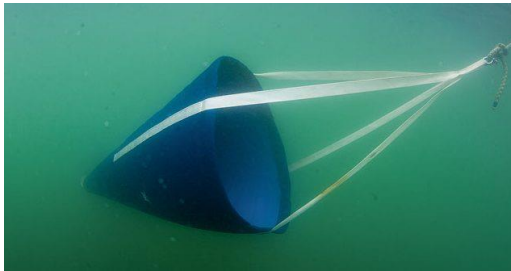

## Essential Kit

### Fenders and Mooring Lines (£228)

Required for Mooring at Marinas, such as at La Gomera and in the UK. Protects boat from damage from the pontoon or other boats.

### Drogue x2 (£86.40)

Required in stormy conditions, but you going too fast in the right direction and helps with stability.

### Anchor (£153.82)

Needed to keep relatively stationary off UK coastal waters and to stop yourself crashing into the reefs in Antigua.

## Essential Kit

Foul Weather Jacket (£168)

Foul weather kit that has 20000mm rainfall waterproofing and is breathable.

Foul Weather Bottoms (£64.80)

Foul Weather kit that has 15000mm rainfall waterproofing and is breathable.

Fog Horn (£7.20)

Alerting other vessels of your presence in foggy conditions.

## Essential Kit

### Sunglasses x2 (£20)

Sunglasses with UVA and UVB protection.

### Sunhats x2 (£20)

One must have protection for covering the back of the neck.

### Handheld Water maker (£2310.00)

Converts seawater into drinkable water. Only needed when you have no power for the electronic watermaker.
